ENEOS Holdings, Inc.

Publication of ENEOS REPORT Integrated Report 2023

ENEOS Holdings, Inc. (President: Saito Takeshi) announces the publication of the ENEOS REPORT Integrated Report 2023 (the “Report” hereinafter).

In May 2023, the ENEOS Group announced its Long-Term Vision and third Medium-Term Management Plan. We are now working to maximize corporate value through the steady implementation of the basic policies of the third Medium-Term Management Plan: establish a solid earnings base, accelerate execution of measures for energy transition, and enhance the management base.

In line with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), the Report has been prepared with an emphasis on reporting the details and background of the Long-Term Vision, the third Medium-Term Management Plan, and our new Carbon Neutrality Plan.

Main topics in the ENEOS REPORT Integrated Report 2023

- Interview with the President to discuss the Long-Term Vision and third Medium-Term Management Plan
- Overview of the third Medium-Term Management Plan
- Carbon Neutrality Plan
- Dialogue between Outside Directors (on topics such as contributing to strategy formulation and evaluation)

Going forward, we will continue to proactively communicate with our investors and other stakeholders through clear, concise disclosures.
